Project Experience

- E-Commerce Website***Django, MySQL, Bootstrap, HTML/CSS, JavaScript*
- Developed comprehensive e-commerce platform with user authentication, product catalog, shopping cart functionality, and admin dashboard using Django framework
- AI Fashion Assistant & VTON***Django, SQLite, Bootstrap, n8n*
- Engineered AI fashion assistant platform integrating advanced image generation technologies, enabling virtual try-on for 10,000+ clothing items with 95% accuracy in fit simulation
- Movie Streaming Platform***Django, Python, HTML/CSS*
- Engineered scalable streaming platform with robust authentication and optimized data delivery, implementing efficient caching and reducing page load times by 40%
- Weather Application***HTML, CSS, JavaScript, REST API*
- Developed real-time weather visualization with OpenWeatherMap API integration, enhancing user engagement by 40% and reducing data retrieval latency by 25%
- DICOM Album Manager***Django, Python, Medical Imaging*
- Engineered medical imaging management system for organizing DICOM files with sharing capabilities, streamlining workflows and reducing retrieval time by 40%

Education

- SNS College of Technology***Coimbatore*
- B.Tech in Information Technology**2022 – 2026*
- Current CGPA: 8/10 — Relevant Coursework: **Data Structures & Algorithms**, DBMS, Computer Networks, **Software Engineering**, Operating Systems

Certifications

- AI-900: Microsoft Azure AI Fundamentals***Microsoft*
- Completed Sep 2025*
- Acquired comprehensive understanding of AI concepts, Azure AI services, and machine learning workloads. Demonstrated knowledge of responsible AI principles and their practical implementation in cloud-based AI solutions.
- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate***Oracle*
- Issued Sep 2025*
- Acquired a strong foundational knowledge of Artificial Intelligence and Machine Learning concepts, including supervised/unsupervised learning, deep learning models (CNNs, RNNs), and Large Language Models. Explored the practical application of OCI's AI and Generative AI services to solve real-world business challenges.
- Practical Cyber Security for Cyber Security Practitioners***NPTEL*
- Score: 90%*
- **Developed** comprehensive understanding of security methodologies and demonstrated strong **problem-solving** abilities. Applied **engineering principles** and showed **creativity** in implementing solutions while seeking **feedback** to improve technical approaches.

Technical Skills

- Programming Languages:** C, C++, Python, JavaScript
- Web Technologies:** Django, React, HTML, CSS
- Databases:** MySQL, SQLite, PostgreSQL (Basic)
- Developer Tools:** Git, Docker, Postman, Shell Scripting
- Cloud Platforms:** AWS (Basic), Azure, OCI
- Core Concepts:** Data Structures, Algorithms, Computer Science Fundamentals, Software Engineering Methods
- Core Competencies:** Problem-solving, Teamwork, Communication, Time Management, Growth Mindset
